Subject index

A

Abuse
  child, development and evaluation of a short workshop on, 389
  substance, *see* Drug misuse
Addiction, *see* Drug misuse
Agency/ethics/empowerment in nurse education, 189
AIDS
  counselling workshops for nursing students, content, 369
  palliative care, developing clinical skills of nurses working in field of, 180
Andragogy, critique of notion of, 328
Anxiety and coping responses during challenge examination, 91
Assessment, *see also* Evaluation
  of competence in clinical practice, 83
  family, interdisciplinary strategy for teaching, 232
Assessment tool for teaching practice placement, evaluation of portfolio as, 172
Audiobridge, shared multi-state learning through, 441
Australian study of stressors to nursing students at beginning of tertiary education, 336

B

BA in community health nursing by distance learning, development, 310
Baccalaureate nursing students' views about nursing as a profession related to preceptorship experience, 16
Bachelor of Arts in community health nursing by distance learning, development, 310
Bachelor of Nursing students' experiences of learning biological sciences alongside medical students, 426
Biological sciences, Bachelor of Nursing students' experiences of learning, alongside medical students, 426
BN students' experiences of learning biological sciences alongside medical students, 426
Branch programmes, transition from Common Foundation Programme (in Diploma in Nursing studies, Project 2000) to, as a major status passage, 362

C

Candidates, nurse student, review of selection methods, 30
Challenge examination, test anxiety and coping responses during, 91
Child abuse, development and evaluation of a short workshop on, 389
China, importance of nurse teachers maintaining current clinical knowledge based on situation in, 299
Clinical knowledge, importance of nurse teachers maintaining current, Chinese experience, 299
Clinical practice/setting/area
  competence/skills in
    in AIDS palliative care, developing, 180
    assessing, 83
  decision-making in, by midwives and health visitors, 270
  facilitator role in, developing, 217
Clinical preceptorship experience, senior, professional socialisation of students as outcome of, 3
Common Foundation Programme to Branch programmes in Diploma in Nursing studies (Project 2000), transition from, as a major status passage, 362
Community (health) nursing
  BA in, development, 310
  education (in general) in, state of, 159
Competence, professional
  in clinical practice, *see* Clinical practice
  in light of post-registration and practice project, discussion of, 167
Computers, personal, choosing, 128
Continuing professional education, opinions of experts in facilitating planning of, 100
Contracting for education, nurse managers' perceptions of
  post-registration courses and, 409
  pre-registration courses and, 401
Coping responses during challenge examination, anxiety and, 91
Courses, *see also* Curriculum
  Diploma, *see* Diploma courses
  post-registration, nurse managers' perceptions of contracting for education in, 409
  pre-registration, nurse managers' perceptions of contracting for education in, 401
Credibility in a changing world, 241
Curriculum
  diploma courses and issues concerning, newly developed, 264
  evaluation, music in, 133
  health studies, substance misuse education in, 107
  interpersonal skills training and the, 458
  overcoming constraints of professional, with student-centered nurse education, 149
  teacher—student power relations in relation to the, 282

D

Decision-making in clinical practice, midwives and health visitors and, 270
Diploma courses
  curriculum issues related to newly developed, 264
  transition from Common Foundation Programme to Branch programmes as a major status passage in, 362

Disabled individuals, physically, nursing career for, 376
Distance learning, BA in community health nursing by, 310
Drug misuse (addiction) education, 421
  in health studies curriculum, 107

E

Ecology, human, exploring the process of learning in, 349
Empowerment (of nurses)
  ethics/agency and, 189
  by research, role of nurse teachers in, 47
Ethics/agency/empowerment in nurse education, 189
Evaluation, *see also* Assessment
  of child abuse workshop, 389
  curriculum, music in, 133
  of portfolio as assessment tool for teaching practice placement, 172
Examination, challenge, test anxiety and coping responses during, 91
Experiential exercise introducing role play, threat reduction and, 145
Experiential learning
  with larger groups of students, using methods of, 60
  reluctant participant in, 139

F

Facilitator role in clinical area, developing, 217
Family assessment, interdisciplinary strategy for teaching, 232

G

Gender and nursing stereotypes, attitudes of newly recruited student nurses to, 286
Graduate education in complex technological nursing environments, poster presentations for, 382

H

Health studies curriculum, substance misuse education in, 107
Health visitors, decision-making by, 270
Human ecology, exploring the process of learning in, 349

I

Illiteracy, 399, 451, 456
  editorial on, 399
  flawed/unsubstantiated evidence for, 451
  implications for nursing education, 24
International Conference of Midwives, 23rd, 319
Interpersonal skills training, theoretical and curricular aspects of, 458

L

Learning
  of biological sciences alongside medical students, Bachelor of Nursing students' experiences of the, 426
  distance, BA in community health nursing by, 310
  experiential, *see* Experiential learning
  in human ecology, exploring the process of, 349
  shared multi-state, through audiobridge, 441
Learning disabilities nursing
  advanced practitioner in, preparing, 250
  opportunities for change in, taking advantage of, 239
Learning package writers, neophyte, problem-based learning packages and considerations for, 73
Literacy, *see* Illiteracy

M

Management, preparing nurses for their role in, 81
Managers, nurse, perceptions of contracting for education, *see* Contracting for education
Marketing of health care education, 202
Medical students, Bachelor of Nursing students' experiences of learning biological sciences alongside, 426
Mental health nursing education in Romania, developing, 225
Midwives, decision-making by, 270
Music in curriculum evaluation, 133

N

Nursing as a profession, Baccalaureate nursing students views about, related to preceptorship experience, 16

P

Pedagogy, defence of, 328
Perceptions
  of nurse managers in contracting for education, *see* Contracting for education of power in teacher—student relationships, 111
Personal computers, choosing, 128
Physically disabled individuals, nursing career for, 376
Plato, sociology and nursing, 445
Portfolio as assessment tool for teaching practice placement, evaluation of, 172
Poster presentations for graduate education in complex technological nursing environments, 382
Post-registration education, nurse managers' perceptions of contracting for, 409
Post-registration and practice project, discussion of competence in light of, 167
Power, *see* Empowerment; Teacher
Practice, theory vs, *see* Theory
Preceptorship experience
  baccalaureate nursing students' views about nursing as a profession related to, 16
  building on strengths through, 239
  senior clinical, professional socialisation of students as outcome of, 3
Pre-registration education, nurse managers' perceptions of contracting for, 401
Problem-based learning packages and considerations for neophyte package writers, 73
Profession, Baccalaureate nursing students views about nursing as, related to preceptorship experience, 16
Professional socialisation of students as outcome of senior clinical preceptorship experience, 3
Project 2000
  Diploma in Nursing studies, transition from Common Foundation Programme to Branch programmes in, as a major status passage, 362
  gap between theory and practice, 295

Psychiatric nursing education in Romania, developing, 225
Psychoactive drug misuse, *see* Drug misuse

Q

Quality assurance in nurse education, 55

R

Reflective practice, exploring a response to concept of, in order to improve its facilitation, 305
Reluctant participant in experiential learning, 139
Research
  empowerment of nurses through, role of nurse teachers in, 47
  teaching and, in higher education, feasibility of doing both, 1
Research-based practice, development of a rationale for, considerations for nurse teachers concerning, 259
Role play, experiential exercise introducing, threat reduction and, 145
Romania, mental health nursing education in, developing, 225

S

Selecting potential nurses, review of methods, 30
Shared multi-state learning through audiobridge, 441
Socialisation of students, professional, as outcome of senior clinical preceptorship experience, 3
Sociology
  Plato and nursing, 445
  teaching, 210
Specialist environment, nurse education in a, 435
Specialist nurse teacher, models relating to future of, 40
Spiritual needs of patients, nurses awareness and educational preparation in meeting, 196
Stereotypes, nursing, attitudes of newly recruited student nurses to gender and, 286
Stressors to student nurses beginning tertiary education, Australian study, 336
Student(s), nursing
  AIDS counselling workshops for, content, 369
  Baccalaureate, views about nursing as a profession related to preceptorship experience, 16
  biological sciences learned alongside medical students, 426
  experiential exercise introducing role play to, threat reduction and, 145
  experiential learning methods with larger groups of, 60
  gender and nursing stereotypes and the attitudes of newly recruited, 286
  power in relationship between teacher and, *see* Teacher
  professional socialisation of, as outcome of senior clinical preceptorship experience, 3
  selecting, review of methods, 30
  stressors at beginning of tertiary education, Australian study, 336
  supervision and its effects on needs of, 343
Student-centered nurse education, overcoming constraints of professional curriculum with, 149
